Vishakha Makes a Major Technological Breakthrough India's One and Only 9 Layers Blown Film Plant in 2009

Vishakha Polyfab Pvt. Ltd. holds the distinction of being the largest manufacturer of Nylon/EVOH-based barrier film in India. Not just that, Vishakha Polyfab is today the one and only manufacturer of 9-layer Nylon/EVOH based high-barrier films for packaging in the country. The company offers 9, 7, 5 and 3 layer barrier films. It is among the most preferred companies for a large number of customers in India as well as around the world. The production facility is located near Ahmedabad, Gujarat, India.

With a production capacity of over 7200 metric tonnes per annum, they are now India's largest PA/EVOH based high barrier multilayer flexible film manufacturer and have a variety of barrier films, which gives them the expertise and flexibility to provide different combinations of films. Specially formulated combinations of materials like NYLON, EVOH, PP, PE and other advanced polymers are used to construct barrier films. That is why a nine layer film gives immense possibilities and provides solutions for varied barrier, strength and aesthetic requirements of customers. These films extend the shelf-life of refrigerated and non-refrigerated food product. They provide a perfect shield against oxygen, moisture and microbes, hence maintaining freshness for a long time and preserving the taste, aroma, flavour, colour and texture of the products. The company has a 9, 7, 5 layer high barrier co-ex film plants from world's leading blown film manufacturing company Brampton Engineering, Canada.

Vishakha Polyfab has a great position in

the market when it comes to offering a wide range of blown film, printing & pouch making facilities. It excels in the manufacturing of 9, 7, 5, 3 layer co-extruded films for packaging solutions.

With a 4-decade experience, cutting-edge technology and a global presence, Vishakha Polyfab continues to develop, manufacture and market an extensive range of flexible barrier films and hi-tech packaging solutions with unmatched quality. They are an ISO 9001:2008 & 22000:2005 companies that is renowned for consistency in terms of quality of products.

According to Mr. Jigish Doshi, CMD, Vishakha Polyfab Pvt. Ltd., 'As the popular saying goes, 'History repeats itself'. And that's exactly what has happened at Vishakha Polyfab. In 2003, we had proved our mettle in the industry by introducing the 7 layer blown film for the first time in India. Today, just six years later in 2009, we have taken another major leap to continue our legacy of pioneering new technologies. Now, we are the first and only Indian manufacturer of 9-layer blown EVOH/Nylon based high-barrier packaging film. This is a major breakthrough in
